Plant anytime . .

SPRING
SUMMER
And FALL

Many new improved selections of larger shade trees offer just the right form and adaptability to frame or background your buildings.

Deciduous flowering shrubs create colorful boundary or foundation plantings. All shrubs and trees established in containers may be planted at any season.

PLEASE READ

TERMS:

Prices are F.O.B. Centerville, Utah. See "Pick Up" Discount below. All prices subject to change without notice.

DISCOUNT FOR CASH:

2% Discount will be allowed for cash *in full* with order. Where credit arrangements have been approved, 2% discount will be allowed for payment before the 10th of the month following date of shipment. 1% service charge per month on past due balance.
Make remittance to Porter-Walton Co., P.O. Box 1619, Salt Lake City, Utah 84110.

"PICK UP" DISCOUNTS:

Save 5% on pick-up orders. Many nurserymen and landscape contractors prefer to pickup. Handling and exposure are minimized. Distribution at your nursery or landscape job can be accomplished more efficiently.

C.O.D. SHIPMENTS:

Orders for shipment C.O.D. must be accompanied by a remittance of one-fourth of the amount to insure acceptance.

BUNDLES OF TEN:

Bare root shrubs and trees are ten per bundle. Please order in multiples of *ten* of each variety and/or size.

BOXING CHARGE:

Boxing and bundling for shipment will be charged at actual cost of materials used in the operation. No charge will be made for loading bulk truck lots.

WARRANTY:

The Porter-Walton Company warrants to the extent of the purchase price that nursery stock sold is true to name and as described within recognized tolerances. Seller gives no other or further warranty, expressed or implied and will under no circumstances be liable for more than the invoice value at the time of purchase.

CLAIMS:

We will gladly correct any error, but we cannot entertain any claim that is not made within 5 days after receipt of the stock. Claim should be made in writing promptly upon receipt of stock.

In case of loss due to damage or delay in transit, your claim should be made to the transportation company.

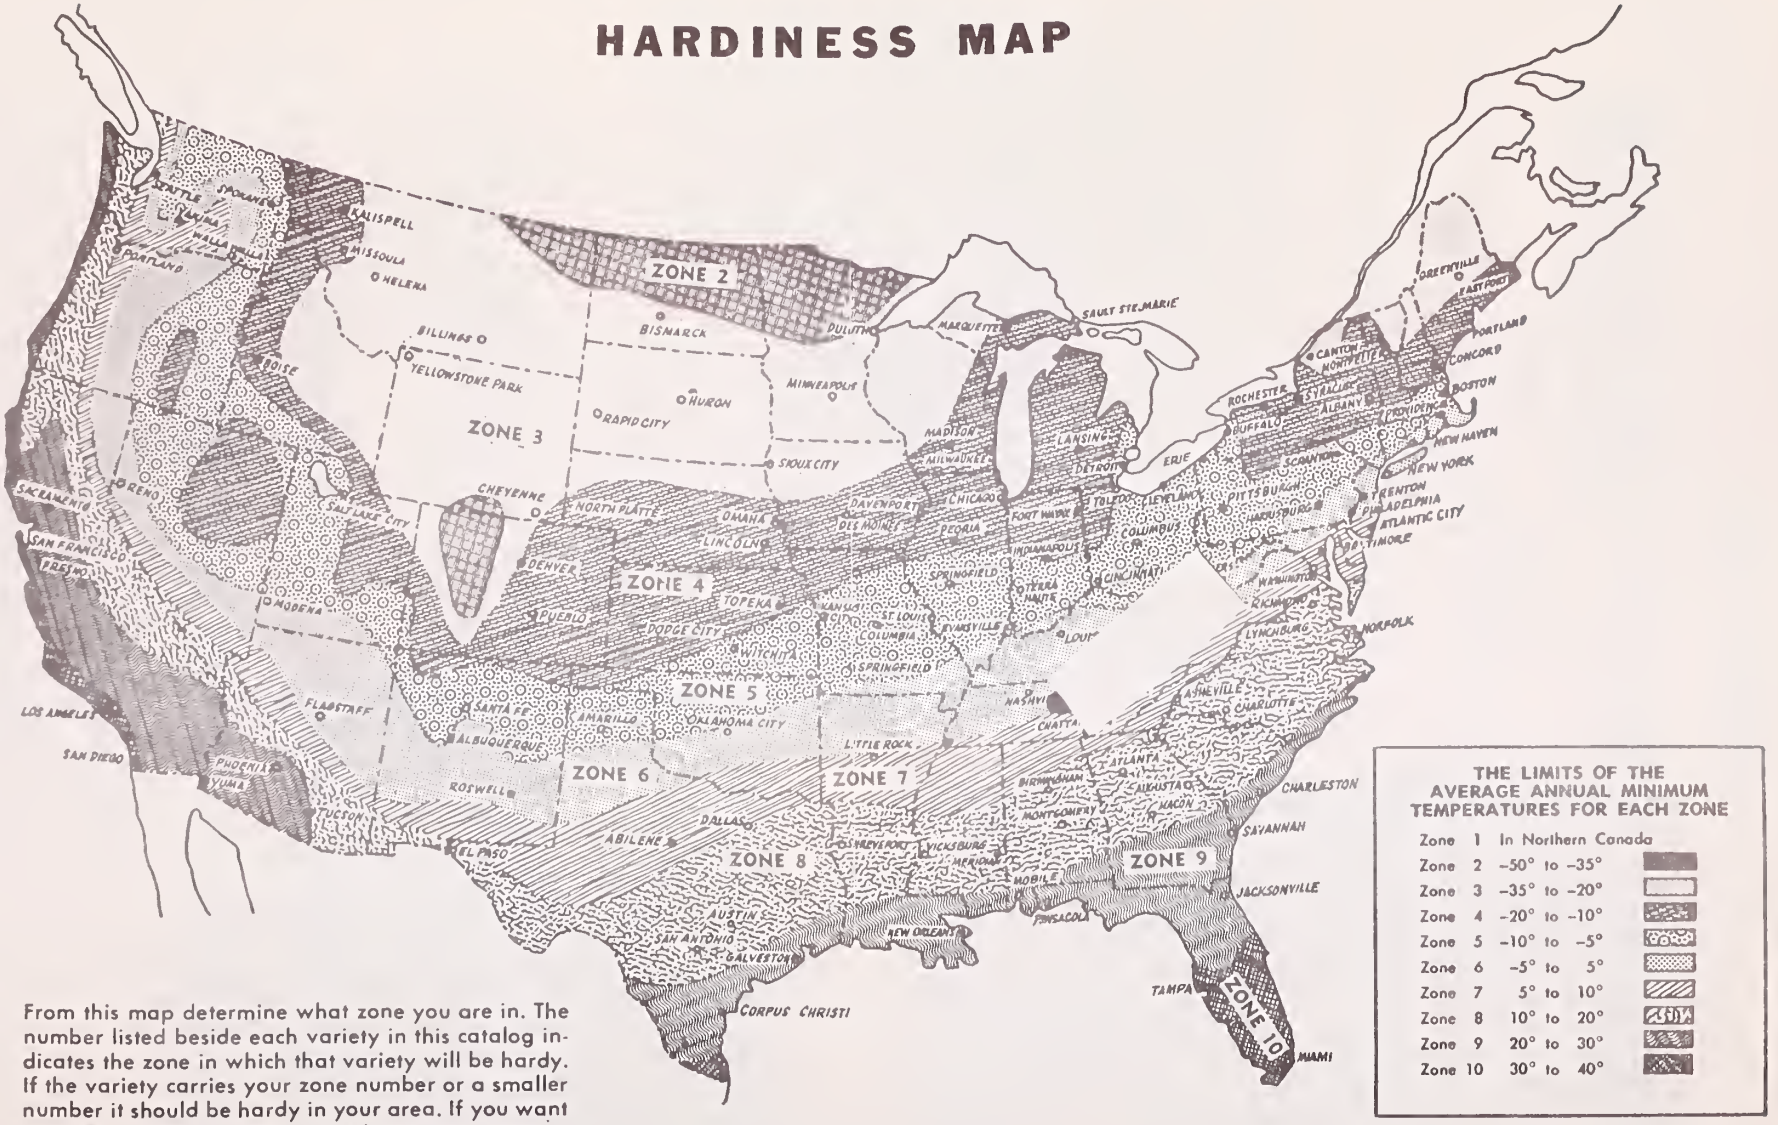
HARDINESS MAP



THE LIMITS OF THE AVERAGE ANNUAL MINIMUM TEMPERATURES FOR EACH ZONE

Zone 1	In Northern Canada	
Zone 2	-50° to -35°	
Zone 3	-35° to -20°	
Zone 4	-20° to -10°	
Zone 5	-10° to -5°	
Zone 6	-5° to 5°	
Zone 7	5° to 10°	
Zone 8	10° to 20°	
Zone 9	20° to 30°	
Zone 10	30° to 40°	

From this map determine what zone you are in. The number listed beside each variety in this catalog indicates the zone in which that variety will be hardy. If the variety carries your zone number or a smaller number it should be hardy in your area. If you want to take a chance on those rated one zone greater, there is a good possibility of success.

DAHLIAS

Gymnoclaudus Dioicus					
Light blue-green foliage. Slow	5 Gal 4-6'	9.00	4.80	-	-
growing, tall picturesque form.	5 " 7-8'	10.00	5.45	-	-
LABURNUM VOSSI, GOLDEN CHAIN TREE					
Small ornamental with bright green					
foliage and drooping racemens of					
bright yellow flowers in June.	5 Gal 6-7'	8.50	4.55	4.40	4.25

LINDEN	Size	List	1-9	10-29	30-100
Americana (Zone 2)					
Grows rather quickly, forming	6 Gal 6-8'	10.50	5.55	5.40	5.25
an open head.	6 " 8-10'	13.50	7.05	6.90	6.75
Cordata Greenspire (Pat. 2086)					
Develops a perfectly straight trunk with radially placed branches that form a narrow oval head. Leaves are rich green w/leathery texture.					
Flowers have spicy fragrance.	5 Gal 6-8'	17.00	8.80	-	-
LIQUIDAMBAR, STYRACIFLUA (Zone 4)					
American Sweet Gum. Pyramidal tree, maple-like leaves turn					
rich yellow and red in fall.	5 Gal 6-8'	8.00	4.15	4.00	-
LOCUST					
Idaho, Orchid Flowering (Zone 3)					
Small to medium size tree with panicles of orchid colored					
flowers in June.	5 Gal 6-7'	9.00	4.80	4.65	4.50
Hybrida Monument (Zone 3)					
Small tree suitable for narrow tree strips in street planting, grows to only 18-20'. Flowers are larger and more colorful than Idaho Orchid.	5 Gal 6-8'	9.00	4.80	4.65	-
Shademaster (Pat. 1515) (Zone 4)					
New superior strain of Thornless Honey Locust. A rapid grower, straight trunk, heavy dark foliage,					
relatively free from disease	5 Gal 5-6'	9.00	4.80	4.65	4.50
and insect pests.	5 " 7-8'	13.00	6.80	6.65	6.50
	5 " 8-10'	15.00	7.80	7.65	7.50
Imperial (Pat. 1605) 30-35' (Zone 4)					
An 'Under the Wire' natural. Exceptionally graceful spreading variety that has gained top recognition as an outstanding tree. The ultimate					
in graceful spreading shade	5 Gal 5-6'	9.00	4.80	4.65	4.50
tree.	5 " 7-8'	13.00	6.80	6.65	-
Skyline Honeylocust (Pat. 1619) (Zone 4)					
A stately and unusual variety with distinctive pyramidal form. Leaves are dark green, of heavy leathery					
texture. Grows to 45'.	5 Gal 7-8'	13.00	6.80	6.65	6.50
	5 " 8-10'	15.00	7.80	7.65	7.50
Sunburst Honeylocust (Pat. 1313) (Zone 4)					
Bright golden foliage on 8-10" of branch tips, broadly pyramidal					
head.	5 Gal 6-7'	11.00	5.80	-	-

LOCUST (Cont.)	Size	List	1-9	10-20	30-100
Thornless Honeylocust	B.R. 5-6'	3.25	1.80	1.70	1.65
Gleditsia triacanthos inermis.	B.R. 6-8'	4.50	2.55	2.40	2.25
	B.R. 8-10'	5.50	3.15	2.95	-
MAPLE					
Crimson King (Zone 4)					
A great improvement over	5 Gal 7-8'	11.00	5.80	5.65	5.50
the Schwedleri Maple.	5 " 8-10'	13.00	6.80	-	-
Ginnala - Amur Maple (Zone 4)					
A small tree w/small deeply lobed leaves that turn bright scarlet in the fall. Attractive when used as informal clumps or the background of					
the border.	5 Gal 6-8'	9.00	4.70	4.65	4.50

Hardy popular tree, fine for					
park, street planting. Attrac-	5 Gal 6-8'	8.00	4.30	4.15	4.00
tive round head.	5 " 8-10'	9.50	5.05	4.90	4.75
	6 " 10-12'	11.50	6.05	5.90	-
	B.R. 6-8'	5.70	3.15	3.00	2.85
	B.R. 8-10'	7.00	3.90	3.70	3.50
	B.R. 10-12'	8.50	4.75	4.50	4.25
Norway, Columnar (Zone 3)					
An outstanding, compact tree. Foliage heavy and dark green. Useful where narrow dense tree is desired, and					
where heavy screen is wanted.	5 Gal 8-10'	12.50	6.55	6.40	6.25
Palmatum 'Bloodgood' (Zone 5)					
Small, gracefully branched tree. New foliage is brilliant red, deepening to dark red coloring Most striking on the deeply					
cut foliage. Diciduaous. Shade.	2 Gal 18-24"	9.50	4.95	4.85	4.75
Miller's Superform					
A new Norway Maple selected especially for its straightness of trunk in early growth. Probably the most rapid growing Norway we have ever had. Heavy dark green					
foliage even in terminal growth.	5 Gal 8-9'	9.50	5.05	4.90	4.75
Scanlon Red, Acer Rubrum Corica (Pat. 1722) (3)					
Pyramidal habit with dark green					
foliage. Stunning fall color.	5 Gal 8-10'	20.00	11.00	-	-
Silver Maple (Zone 3)					
Large fast-growing trees,	5 Gal 6-8'	7.00	3.80	3.65	3.50
leaves silvery underneath.	5 " 8-10'	8.00	4.30	4.15	-
Schwedleri (Schwedler Norway Maple) (Zone 3)					
Red leaves in Spring.	5 Gal 8-9'	11.00	5.80	5.65	5.50

MAPLE (Cont.)	Size	List	1-9	10-29	30-100
Sycamore, Green Leaf (Acer pseudo-platanus) Habit of growth and green foliage is quite similar to Norway Maple. Do not confuse this with European Sycamore (Oriental Planetree.)	5 Gal 6-8'	7.00	3.85	3.65	3.50
MIMOSA TREE, Albizzia Julibrissin "Silk Tree" (Zone 6) Small deciduous tree with light green feathery foliage has quantities of pink silk-like flowers produced in summer.	5 Gallon	8.00	4.10	3.95	-
MULBERRY, MAPLE LEAF (Zone 5) Non-fruiting	5 Gal 6-8'	8.00	4.10	3.95	-
MORUS alba 'Pendula'. Weeping Mulberry (Zone 6) Robust growing, deciduous Mulberry, cascading branches hold bright green leaves. Edible black fruits in profusion in early spring.	5 Gallon	15.00	7.80	7.65	-
OAK					
Bur, Macracarpa (Zone 4) Vigorous grower of picturesque appearance. Best for Western soils.	5 Gal 5-6'	12.50	6.65	6.50	-
Red, Quercus Borealis (Zone 4) Rapid growing, developing a large rounded head. Attractive foliage summer and autumn.	5 Gallon	8.00	4.10	3.95	-
OLIVE					
Russian, Elaeagnus Augustifolia	3 Gal 5-6'	8.50	4.55	4.40	4.25
Silvery leaves and fruits.	5 " 6-8'	10.50	5.55	5.40	5.25
	7 " 8-9'	13.50	7.05	6.90	6.75
PEACH (Flowering)					
Helen Borchers (Zone 5) Double clear pink	3 Gal 5-6'	5.80	3.20	3.05	2.90
Red Flowering (Zone 3) Double Red	3 Gal 5-6'	5.80	3.20	3.05	2.90
PLANETREE					
European Sycamore (Zone 5) Bark is smooth light-colored, almost creamy-white. Large handsome leaves.	5 Gal 6-8'	9.00	4.80	4.65	4.50

POPLAR, Populus	Size	List	1-9	10-29	30-100
Carolina (Zone 3) Wider growing than Lombardy but not as tall. Price same as Lombardy.	5 Gal 6-8'	5.00	2.80	-	-
Lombardy, Populus nigra italica (Zone 3) Erect narrow type.	5 Gal 6-8'	5.00	2.80	-	-
Cottonless Cottonwood (Zone 3) Large hardy tree, 75' or more. Much preferred over the common species of Western Cottonwood because it does not develop seeds.	5 Gal 6-8'	7.80	4.20	4.05	3.90
POPULUS TREMULOIDES (Quaking Aspen) (Zone 5) White bark, light green leaves that tremble in the breeze.	5 Gal 3'	8.00	4.25	-	-

Nightscaping®

DRAMATIC GARDEN LIGHTING IN UTAH BY PORTER-WALTON'S

Nightscaping is a registered trade name for Bill Locklin's 12 volt garden lighting fixtures, manufactured by Loran, Inc., in Redlands, California.

Nightscaping fixtures may be said to take up where landscaping leaves off. Your beautiful garden and your favorite plants cannot be seen effectively unless they are properly lighted after dark.

Nightscaping creates a dramatic effect by casting shadows of the plants on the walls, ceiling, or on the ground. While all lights can be used to cast shadows, the lighting and shadow effect cannot be controlled as well as it can with Nightscaping fixtures.

Nightscaping is a safe 12 volt A.C. system. This is the same safe voltage used for your child's electric toy train. Just as it can be made to make the toy trains go faster or slower, it can be used to dim your lights from full brightness to low or completely out.

However, there is one disadvantage to a 12 volt system. A transformer is required to reduce the house current, 110 volts, to a safe 12 volts. Actually this slight disadvantage is to your advantage as a 12 volt system can be handled safely so that you could even adjust the fixtures at night during damp or rainy conditions. You also eliminate the shock hazard of cutting the cables accidently during lawn mowing or trimming your plants and hedges. Even if the able were cut and the electricity turned on with bare ends loose, there is little danger.

LOW VOLTAGE! While even the electricians generally think of using small wires, in Nightscaping this is not true. Because of low voltage we use larger size wire compared to the average cord or house wiring. It is stranded for flexibility so that adjustments can be made easier from time to time.

Wattages for Nightscaping fixtures range from 6.8 watts to 35 watts. In selecting the proper size of transformer to use, first select all the fixtures that you need, then add the total watts per fixture. The total of all the watts added equal the size of transformer required. Transformers come in the following sizes:

25 watts	150 watts
50 watts	250 watts
100 watts	

The total wattage should not exceed the transformer wattage rating. Transformers are designed for both outdoor weatherproof installations or for indoor installation. They may be purchased without enclosures or complete with cord, cap and outdoor enclosures ready for plugging into a 110 volt source. Using a variety of fixtures will usually result in about 15 watt per fixture average, so that a 10 fixture installation will normally require a 150 watt transformer.

Individual fixture list prices start at $7.45 per fixture up to $18.75, or an average of about $12.60 per fixture. Transformers cost from $12.00 without enclosures to $37.75 with enclosures for outdoor installation. Low voltage cable costs $.16½ per foot plus installation cost if you don't put it in yourself.

Low Voltage 12 Volt Lamps:

A 12 volt lamp has a single contact bayonet base with a spring action to ensure good electrical contact. Filament lengths are ¼" to ½" long, compared to lengths of 1" to 18" long for 110 volt lamps. These 12 volt lamps are ordinary automobile tail light lamps and made to be able to withstand a lot of vibration. The lamps are clear and give an almost point source of lighting, which creates the shadows. Shadows can be controlled by moving the fixtures or lamps close to the object or plant to increase the size of shadow, or pull it away and reduce the size of the shadow. The shadow can be cast on the walls, fence or ceiling. The shadow effect can also be reversed so that it will fall on the lawn, walkway, pool decking or on other interior floors. Lights that are directed at trees at the proper angles will produce shadows between projecting branches to create a three-dimentional effect with shadow depths not possible with standard flood lights, which light up the entire tree and destroy shadows. When the wind blows, the shadow effect makes your garden come to life with tree and shrub shadows moving about all of the various surfaces.

When using ordinary PAR-38 flood lights, one or two of them will light an entire back yard, plus light your neighbor's yard at the same time. Nightscaping will adequately light your yard with just a few fixtures without casting unwanted light into your neighbor's lot.

General lighting or moonlighting effect to provide background is a must in good garden lighting. This effect can be created in several ways. If there is a street light shining in your yard, don't let it discourage you — utilize it to your advantage. Street lights are man-made moons which don't cost you anything to operate. Other sources of this lighting are front and rear entry lights, eave lights, patio or other existing lights that can provide you with the required general lighting. But these lights must be well shielded and their light diffused and balanced to harmonize with your garden lighting.

A good example of lighting balance can be taken from night-time driving conditions. On a country road on a pitch-black night it is difficult to see, but when you are driving on a bright moon-lit night, it is much easier to see. Also, compare driving on an unlighted roadway to driving on a lighted roadway — the lighted roadway is much easier to see and drive on. The same conditions exist in garden lighting.

Nightscaping fixtures are designed for all situations and for all types of lighting effects. A tree 5 feet high and 5 feet wide may require as many as 3 to 5 fixtures to provide the desired effects. A "LOCATOR" fixture, 9" high and 2" wide may be used to light up the tree trunks. Three or four "STARLITERS" will provide the down lights and shadows on the pool or patio decking. These little "STARLITERS" measure only 2" wide and 3" long and weigh about 5 ounces each. They can be placed on almost any branch. The "STARLITER" is our favorite and most widely used fixture — A REAL STAR in our Nightscaping family.

A maple tree that is 20 feet high will need a "POWERLITER" for illumination. The "POWERLITER" provides a beam spread of 25 degrees by 50 degrees, or a change of lamp can provide a pencil-point light with a 6 by 5 degree spread. With the PAR-36 lamp many other beam spreads are possible.

For those hard to reach walls where general lighting cannot reach, the "HILITERS" do the job. They are specially designed for this purpose.

For waterfalls and cascading effects, the "PORPOISE" is best suited. It is only 4" high and 6" wide and can be put into the water for either effect or to get it out of sight.

"SPARKLERS" are designed to give a sparkling effect to a swimming pool or to a fish pond. They come in three different sizes so that just the right lighting can be achieved.

A variety of lights are available for walkways. The "NAVIGATOR" is 9" high and 5" wide and lights 10 feet of your walkway. For something a little larger, the "ILLUMINATOR" will light a walkway 25 feet wide.

Firefly effects in the trees can be achieved through a combination of "TWINKLERS" mixed with "STARLITERS" so that you have little flashes of light darting about.

In addition to the few fixtures mentioned above, additional special purpose fixtures are available to meet your lighting needs. Also, the fixtures mentioned above can be obtained in different sizes to meet different conditions and sizes of plants. Special designs can be fabricated by Porter-Walton's. Thus you can readily see that the Nightscaping line is not JUST a new type of light. It is a new and complete line of fixtures designed to bring out all the best points of your garden and plants.

Fine Textured -- Easy to Care For

VELVET LAWN

Now with both

. . . . NEWPORT (lustrous deep green)

and Park (earlier sprouting and rooting)

to give EXTRA SATISFACTION

VELVET LAWN

New improved Velvet Lawn Mixture now contains Newport Kentucky Blue grass which provides a distinctive lustrous deep green color, and Park Kentucky Blue Grass for earlier germination and faster root establishment. Velvet Lawn thrives in shade or sun, makes a thick durable green carpet that is easy to maintain. Greens up early in the spring, maintains color until late in the fall.

PW Seed
TRI-KOT
PROCESS

TRI-KOT Seed Treatment
(pronounced Try Coat)
Gives Better Stands

Stimulates Quicker Growth

Advantages of a Mixture

A mixture provides the need for variability which is present in every lawn. Any lawn has a wide range of variable environments under which grass must grow, such as soil variations, level areas, sloping areas, sun, shade, tree root competition, traffic, mowing variations, water and fertility discrepancies. Also to be considered are the seasons of the year, temperature ranges, and disease problems. Each variety included in Porter-Walton Lawn Mixture has its particular adaptation to a shaded area, a full sun or a dry area. Certain varieties have better disease-resistance, will better withstand mowing and fertility variations.

It makes sense to plant a Mixture and insure adaptation to the many environments of lawn culture.

ORTHO FLOWER and GARDEN PRODUCTS

Crab Grass Control with Insecticide & Fertilizer

- A complete 19-3-3 lawn fertilizer containing fast acting nitric nitrogen and long lasting ammonic nitrogen. Also contains 1.7% iron.
- Controls crab grass and poa annua by preventing spring seed germination.
- Controls turf insects such as Japanese beetle grubs, white grubs, ants, etc.
- Easy to apply with ORTHO Whirlybird or conventional 2-wheel spreader.

PRODUCT & SIZE NO.	SIZE	RETAIL EACH
9824-01165	2,500 sq. ft.	9.95
9824-0133	5,000 sq. ft.	18.95

Contains: Nitrogen, Phosphorous, Potash, Iron, Plus Betasan and Chlordane.

Super Lawn Groom

- A complete 21-4-4 lawn fertilizer containing fast acting and long lasting plant nutrients. Also contains 2% iron.
- Controls most lawn weeds, such as dandelion, chickweed, plantain, etc. Kills weeds — roots and all.
- Easy to apply with ORTHO Whirlybird or 2-wheel spreader.

PRODUCT & SIZE NO.	SIZE	RETAIL EACH
9821-01137	2,500 sq. ft. box	3.95
9821-01275	5,000 sq. ft. box	6.95
9821-0155	10,000 sq. ft. bag	12.95

Contains: Nitrogen, Phosphorus, Potash, Iron, Plus Banvel-D and 2,4-D.

ORTHO-GRO Lawn Food 22-4-4

- 5-1-1 ratio of nitrogen, phosphorus and potash plus iron and sulfur, a formula recommended by turf experts.
- Fast dissolving pellets will not burn . . . water after application.
- Contains fast acting and long lasting plant nutrients.
- Clean, odorless pellets easily applied with ORTHO Whirlybird.

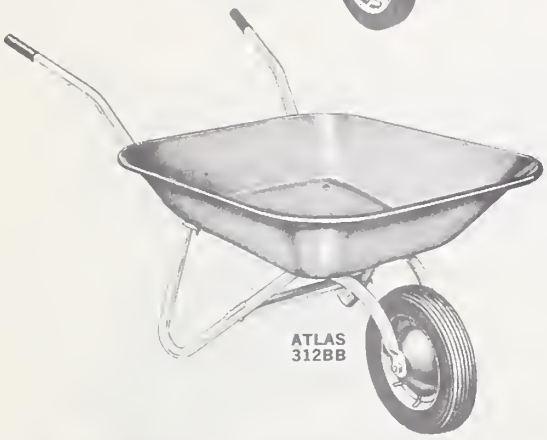
WHEELBARROWS

THE PACER

THE PACER: Low-priced. Sturdy yet lightweight. Seamless tray, 3 cu. ft. max. capacity, rolled edge for rigidity. Tubular steel handles support bottom and rear of tray. Widespread legs, wrap-around brace for greater stability. Non-rust plated bolts. Attractive tu-tone baked automotive finish. Large (10" x 1.75) puncture-proof tire. Oilube (oil-impregnated) bearings. Parts cartoned, trays nested. Approx.wt. 21 lbs.

Each $6.85



ATLAS 312BB

THE ATLAS: Large capacity (4 cu. ft. max.) seamless tray, rolled edge. Glide Ring (Pat. No. 3,170,707) countersunk at each bolt head in tray. Sturdy yet lightweight. Tubular steel handles support tray. Widespread legs for stability. Streamlined leg brace provides more "step" clearance. Non-rust plated bolts. Parts cartoned, trays nested.

ATLAS-312BB: 12½" wheel, TUBELESS PNEUMATIC tire, ball bearings. Approx. wt. 30½ lbs.

Each $11.75

THE CADET

THE CADET: General-purpose wheelbarrow for suburban homeowner, truck farmer, landscaper, small contractor, lawn and garden enthusiast and do-it-yourselfer. Fits promotional campaigns at any time of the year. Smooth seamless tray with curled edge. 4 cu. ft. max. capacity. Glide Ring (Pat. No. 3,170,707) countersunk at each bolt head in tray. Strong channel steel legs with steel bracing. Channel steel wheelguard. Double-disc steel wheel with 4.00 x 8", 2-ply pneumatic tire. Self-lubricating bearings. Axle interlocks with steel brackets. Varnished hardwood handles. All metal parts have baked automotive finish. Shipped knocked-down only. Approx. wt. 52 lbs.

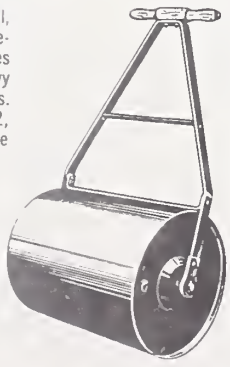
Each $19.50

MODELS #12, 13, 14: High grade steel, electrically welded. Edges rounded to prevent cutting sod. Adjustable scrapers. Axles extend through full length of drums. Heavy bar steel handles with hardwood handgrips. 1" rustproof "Snap-tite" plug on model 12, brass plugs on models 13 and 14. Attractive tu-tone baked automotive finish.

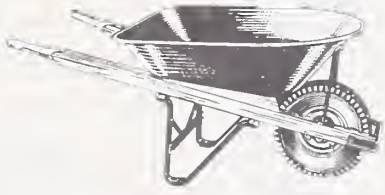
Model 11 $13.50

Model 12 16.25

Model 13 23.50



Model	Bearing	Size Dia. x Lg.	Approx. Wt. Lbs. With Water	Approx. Shipping Wt. Lbs.
10	Plain	14" x 20"	122	24½
11	Oilube	14" x 24"	150	34¾
12	Oilube	18" x 24"	250	54½
13	Roller	24" x 24"	415	84
14	Roller	24" x 32"	570	100½



MODELS #M4½-22 & #M5-22: Seamless trays deep drawn with rolled reinforced edge. Smooth hauling, fast dumping. Sturdy. Ideal for handling concrete and for general construction purposes. **MODELS #S4½-22 and #S5-22** with steel pipe handles.

In Stock

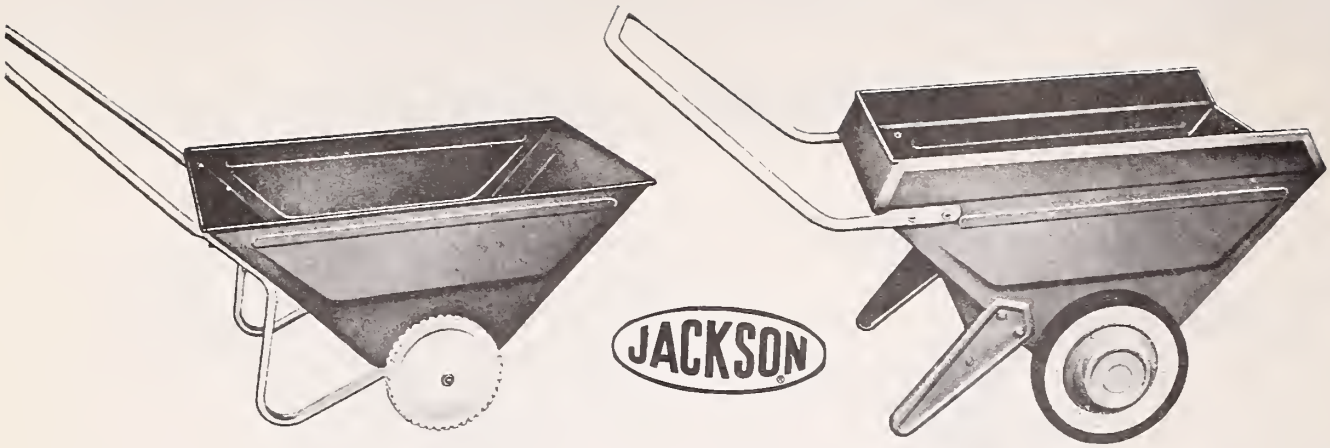
Model M4½-22

$23.50

Model M11-22

$25.75

MODEL #M11-22: Press formed tray is narrow for easy passage through doorways. Preferred by many contractors due to straight sided construction and increased depth at the rear. Ideal for handling concrete. **MODEL # S11-22** with steel pipe handles.

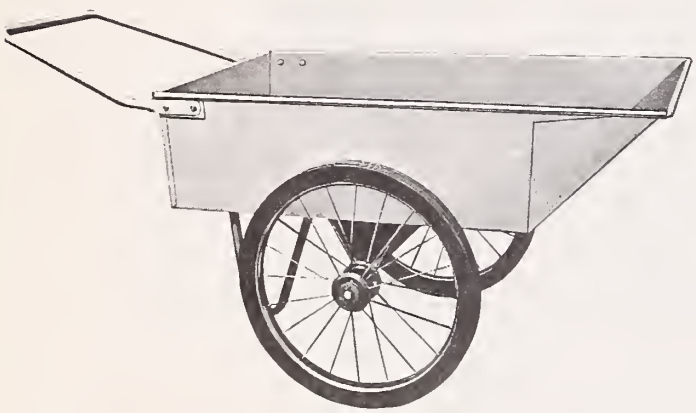


HANDI-CART 763: 3 cu. ft. max. capacity. Low-priced. 8" DURA-CAST wheels are easy rolling. Tubular steel legs and handle. Body embossed to give added strength. Glide Ring (Pat. No. 3,170,707) at each inside bottom bolt hole prevents garden tools from catching on bolt heads. Two to carton approx. 28½ lbs.; one to carton approx. 16 lbs.

Each $6.25

DELUXE CART 764: Top quality cart. 4 cu. ft. max. capacity. Strong steel body, electrically welded, reinforced edges, embossed to give added strength. Glide Ring (Pat. No. 3,170,707) at each inside bottom bolt hole prevents garden tools from catching on bolt heads. Sturdy tubular steel handle. Press-formed steel legs. Attractive tu-tone baked automotive finish. Large semi-pneumatic tires (10"), wide tread. Locked-in brass bearings. Two to carton approx. 50 lbs.; one to carton approx. 26 lbs.

Each $9.95



YARD CART: Attractive, large capacity cart with many year-round uses. Saves time and turns work into enjoyment around the yard and garden. Ideal for landscape and nursery work. The all-steel welded body is 42" x 23¼" x 10½" with reinforced perfect-curl edges. Two large 20" x 1.75 chrome plated ball bearing bicycle type wheels with puncture-proof, semi-pneumatic rubber tires assure easy rolling. Well balanced on axle. Will pass through standard width doorways. Beautifully finished in tu-tone baked-on enamels. Completely packaged, one to carton. Approx. wt. 70 lbs.

Each $27.50

#400 $14.90

#600 $15.35

HAND TRUCKS

Fromes ore made of 1" heavy gauge steel tubing. Electrically welded and reinforced at paints of stress. Wrop-around load strops concave shaped to receive kegs, borrels, bags, etc. Closed nose plates on all madels trimmed to prevent snogging and scratching of objects being lifted or accidentally bumped. Bracing pravides adequate suppart.

All models have Oilube bearings (self-lubricating), except No. 500 which has ball bearings. Push-pull safety handles far greater mobility. Twin style handles an Model 400TG. Durable boked autamotive finish.

Washington State Highway Department

SEATTLE FREEWAY

This slope will be planted with ground cover plants on a separate contract. The area will be in good shape for the future planting because it has been treated with a herbicide to prevent weed growth and it has to be covered with SOIL SAVER to prevent erosion. The plants will be placed through the jute mesh.

SOIL SAVER prevents erosion . . . anchors seed and soil in place

SOIL SAVER

SOIL SAVER gives immediate and continuous protection against wind or water erosion. It prevents loss of soil, seed or ground cover plants and loss from cost of repair labor.

SOIL SAVER, a heavy woven jute mesh, holds seed and soil intact on slopes, drainage ways and other areas of concentrated water flow, preventing erosion during heavy rainstorms. SOIL SAVER is a heavy woven mulch that stays put and can't be lifted by flowing water, wind or growing grass. Because of its mesh construction, the openings between strands give the grass plenty of growing room. There are 3000 "check dams" per yard which work to hold soil and seed in place while water flows over them. When grass is firmly established SOIL SAVER decomposes adding rich organic matter to the soil at the rate of two tons per acre.

Sell SOIL SAVER erosion control on your next slope job - insure customer satisfaction - avoid lost time.

SILVA-FIBER

An outstanding mulching material for soil stabalization and fast seed germination, to be used with hydraulic seeding equipment. SILVA-FIBER is mechanically processed natural wood fibers that, when hydraulically applied, intertwine to form a strong continuous mat relatively unaffected by rain or wind. It will adhere to ground irregularities, keeping seeds moist for faster germination. An economical mulch for large areas. Apply 1000 to 1400 pounds per acre.

DIRECT TRUCK AND RAIL CAR SHIPMENTS

Pool Car and Full Car Service, freight prepaid, available enroute between Canadian shipping points and Salt Lake City rate zone. Stop-over charges on pool car delivery will be added to customers invoice (approximately $20.00). Pool or Full Car quantity rates apply to any assortment of sizes.

Cars can be routed through Nevada over Southern Pacific Lines and through Idaho and Utah over Union Pacific or Denver & Rio Grande Railroads. On pool truck shipments there will be a stop charge of $5.00 per stop for partial unloading.

DECORATIVE CHUNK BARK

HARMONIOUS TEXTURE AND COLOR

Now in Two Sizes — **Regular & Large Size**

Decorative Chunk Bark gives a subtle mottled color and texture that harmonizes beautifully with garden architecture and with surrounding growing plants. Can be used in the garden or in indoor planters with dramatic effect. Chunk Bark, used as a deep decorative mulch, gives the additional benefits of dust, control consistent soil moisture and temperature, and greatly reduced weed growth.

The most powerful heater for its size!

MARK 50

Produces 50,000 BTU's per hour

(The amount of heat normally required to heat a small house)

REDDY HEATER Mark 50 & Mark 50 Deluxe Units PRODUCE 50,000 BTU's PER HOUR. This means they will heat the average two car garage from 32° to 72° in minutes. You have instant heat, wherever you need it.

COMPACT AND PORTABLE, weighs only 42 pounds (without fuel). Reddy Heaters are easy to carry and work anywhere electric power is available.

SIMPLE TO OPERATE, plug a Reddy Heater into a 115 volt electrical outlet and it starts instantly. It will run over 10 hours on one tank (4.5 gal.) of kerosene.

MARK 50 *DELUXE*

with Exclusive Safety Control

The Mark 50 Deluxe is specifically designed for safe unattended operation.

The Mark 50 deluxe offers an exclusive automatic shut-off control. This control is similar to the "low limit" or "low fire" control on your home heating system. A cadmium sulphide light sensor cell automatically trips a circuit breaker shutting the unit off within 30 seconds of detection of any of the following:

1. Low fuel in the tank. 2. Poor quality flame characteristics or ignition failure due to excessive water in fuel caused by condensation in the fuel can or fuel tank. 3. Low voltage in the power line (could occur at peak usage times). 4. A defective spark plug or transformer resulting in mis-firing.

REDDY HEATERS

the hot line with built-in peace of mind

MARK 75 DELUXE

Circulates 75,000 BTUs an hour, as much heat as the average home furnace produces. Runs up to 17 hours without refueling (40% more with optional thermostat). Compact. Can be hauled in a car.

MARK 120 DELUXE

A 120,000 BTU per hour heater with built-in thermostat for applications where high volume heat is needed. Runs over 17 hours on one tank of fuel. Mounted on large rubber-tired wheels for maneuverability and portability.

Equipped with exclusive automatic shut-off controls for unattended operation

The Mark 75 Deluxe and Mark 120 Deluxe are powerful, high capacity, ruggedly-built portable heaters — designed for any application, indoors or outside, where *lots* of auxiliary heat is required.

Both produce 262 degrees *immediately.*

Both are equipped with an exclusive automatic shut-off control which ideally suits them for unattended operation. Just plug them in and forget them. This control gives you the peace of mind that, should the flame or ignition fail for any reason, a circuit breaker will automatically shut off the motor and fan . . . and cut off the fuel supply. This action eliminates the possibility of raw fuel being sprayed throughout the area.

And more. The Mark 75 and Mark 120 are highly efficient. Their patented low-pressure burner systems produce near-total combustion, making them the cleanest burning heaters of their type on the market today. No venting is needed. And the heavy-duty 10,000 volt transformers assure quick, positive starts, even in sub-zero temperatures.

Both heaters are easy to use. To start them, simply plug into a 115-volt electrical outlet. Pull the plug and they stop.

TREE WRAP . . . Saves Young Trees

Cat. No. 7595

Tree Wrap protects newly planted trees from dehydration, sun scald and borer attack. Many otherwise healthy young trees are damaged and eventually die from sun-scald and dehydration. The garden size tree wrap package will protect three to four trees of 2" average trunk diameter. When trees are damaged by vehicles, children or cats, recommend Treeheal and Tree Wrap to repair and encourage new bark growth. Tree Wrap protects wounds from dirt and disease and induces faster healing.

WILT PRUF

Cat. No. 4150

Wilt-Pruf anti-transpirant protects plants against wilting due to transplanting shock, drouth, winter-kill or summer scald. Dahlia Tubers and Canna Roots keep perfectly after being dipped in Wilt-Pruf solution. Cuttings, seedlings and indoor plants can be efficiently protected against drying out. Wilt-Pruf protects the freshness of cut foliage plants and Christmas trees. Prevents winter-kill and winter-burn of evergreens, roses and shrubs in the garden. Packaged in gallons, 5-gallon and 30-gallons for commercial use or in 8 oz. readimix or pint and quart concentrates for resale to gardeners.
